AUTHOR INDEX

ABABOUCH, L., histamine in Moroccan fish, 904.
ABBAR, F.M., properties of staphylococci from milk, 871.
ABEYTA, C., JR., *Aeromonas hydrophila* in oysters, 643.
ABRAMSON, D., (see Sinha, 608).
ACUFF, G.R., survival of *C. jejuni*, 627; *Campylobacter* in turkey processing, 712; (see Savell, 917).
ADDIS, P.B., cholesterol and cholesterol oxides in dairy products, 849.
ADESIYUN, A.A., bacteriologic studies of foodhandlers, 845; *S. aureus* in human nose, 955.
AHMED, A.A-H., *Y. enterocolitica* in yogurt, 983.
AJANNUSI, O.J., (see Adesiyun, 845).
AKHTAR, M., (see Stersky, 428).
AKPA, S.J., (see Adesiyun, 845).
AL-DABBAGH, W.Y., (see Al-Rajab, 282).
AL-GHADY, A.M.R., (see Slade, 471).
AL-RAJAB, W.J., *Salmonella* in Iraqi milk products, 282.
AL-SOGAIR, A., (see Ayaz, 504).
AL-ZAHAWI, S.M., (see Al-Rajab, 282).
ALAOUI, M.M., (see Ababouch, 904).
ALVAREZ, S., (see Perdigon, 986).
AMSHEY, J.W., milk contamination with antibiotics as detected by an immunoassay method, 850.
ANDERSON, D., QA in the food industry, 844.
ANDERSON, M.E., cleanliness of food contact surfaces, 342; (see Bell, 207).
ANDREWS, W.H., resuscitation of injured *Salmonella*, 62; (see Poelma, 121).
ANGEL, S., radurized and refrigerated prawns, 142.
ARSLAIN, S.H., (see Abbar, 871).
ASAKAWA, Y., (see Sakazaki, 773).
ATKINSON, J.C., (see Gecan, 216).
AYAZ, M., microbiology of tehineh, 504.
BAER, R.J., (see Sommerfeldt, 729).
BAIGENT, G.J., (see Donnelly, 846).
BAILEY, J.S., (see Cox, 605).
BAKER, R., (see Delaquis, 42).
BANDLER, R., (see Gecan, 216).
BARKAI-GOLAN, R., (see Paster, 615).
BARNARD, G.T., (see Bleile, 850).
BARNARD, S.E., president's message, 177; total solids composition of regular homogenized milk, 850.
BARRETT, E.L., (see Rodriquez, 680).
BARROW, G., (see Sakazaki, 773).
BARTLETT, F.M., (see Patel, 183).
BECHTEL, P.J., (see Miles, 222).
BECKERS, H.J., foodborne disease in the Netherlands - 1981, 924.
BEJAR, S., (see D'Aquino, 974).
BELL, M.F., treating beef with acetic and formic acids, 207.
BENDER, R.C., milk quality premiums, 854.
BENEDICT, R.C., (see Whiting, 874).
BENGSCH, H.K., (see Ginn, 760).
BERNTHAL, P.H., N-nitrosamine inhibition in bacon, 58.
BERRY, B.W., connective tissue in restructured steaks, 455.
BESLING, J.R., (see Notermans, 786).
BEUCHAT, L., (see Sakazaki, 773).
BILLE-HANSEN, V., (see Stavnsbjerg, 146).
BIRCHARD, D., dairy equipment cleaning and sanitizing, 855.
BISCHOFF, W., (see Wei, 267).
BISHOP, J.R., assessing shelf-life and quality of dairy foods, 739.
BLANKENSHIP, L.C., (see Bracewell, 532).
BLEILE, D.M., detection of antibiotics in milk by a rapid test strip assay, 850.
BOESEL, B., (see Ockerman, 14).
BOLDERDIJK, R.F., (see De Smedt, 510).
BOLESZCZUK, P., (see Entis, 278).
BOLLINI, E., (see D'Aquino, 974).
BOOREN, A.M., (see Bernthal, 58).
BOTHA, W.C., measuring bacterial ATP in milk, 822.
BOUTIN, B.K., enteropathogenicity of *Klebsiella pneumoniae* isolates, 442.
BRACEWELL, A.J., recovery of campylobacter from pork skin, 532.
BRADLEY, B.D., (see Frobish, 781).
BRASINGTON, C.F., efficiency of boning beef carcasses, 211.
BRAZIS, A.R., (see Ginn, 760).
BRENNAN, M., cellular damage in dried *L. acidophilus*, 47.
BRIGGS, E.H., (see Donnelly, 846, 994).
BRINDA, J.J., guidelines for facilities planning, 845.
BROOME, C.V., listeriosis in the United States, 848.
BRUDVIG, S.A., (see Dybing, 421).
BRUHN, C.M., consumer response to food irradiation, 844.
BUCHANAN, R.L., (see Huhtanen, 112; Palumbo, 189).
BUESCHKENS, D.H., (see Clark, 135).
BULLER, H., (see Madden, 33).
BULLERMAN, L.B., (see Marshall, 378; Palomar, 846, 854).
BULTHAUS, M.M., (see Ginn, 760).
BURDASPAL, P.A., (see Sanchis, 445).
BURROWES, O.J., evaluating cultures for summer sausage, 280.
BUSH, R.K., (see Taylor, 845).
BUSSE, W.W., (see Taylor, 845).
BUSTA, F.F., (see Wagner, 352; Ababouch, 904).
CALDERON, M., (see Paster, 615).
CALVERT, O.H., (see Lillehoj, 623).
CANGIALOSI, M., (see Whiting, 874).
CARPENTER, J.A., (see Silas, 236; Bracewell, 532).
CARR, T.P., microbial changes of beef slices, 534.
CASE, R., (see Ginn, 760).
CASSENS, R.G., (see Johnson, 847).
CAYLE, T., penicillin in cheese and whey, 796.
CHAMBERS, J.V., (see Burrowes, 280).
CHIN, K.-D.H., amines in miso, 423.
CHU, F.S., (see Wei, 267; Zhang, 336).
CHULASIRI, M.U., (see Paovalo, 12).
CIESIELSKI, C.A., (see Broome, 848).
CLARK, A.G., *C. jejuni* in egg yolk and albumen, 135.
CLIVER, D.O., (see Kostenbader, 920).
CLYDESDALE, F.M., (see Platt, 37; Gifford, 977).
COCCHIERI, R.A., phthalate esters in Italian packaged foods, 265.
COLE, M.T., methods to detect viruses in oysters, 592; viruses in oysters, 596.
COLE, R.J., (see Ram, 792).
COLLINS, P., (see Genigeorgis, 895).
COLLINS-THOMPSON, D.L., manganese content of *Lactobacillus*, 602; *Salmonella* in Cheddar cheese - recent experiences in Canada, 857; (see Wood, 691).
COLWELL, R., (see Sakazaki, 773).
COOK, D.W., oyster relaying, 196.
CORDRAY, J.C., restructured pork, 639.
COX, N.A., *Enterobacteriaceae* identification, 605.
CRAIGMILL, A.L., (see Riviere, 826).
CUPPETT, S.L., (see Bernthal, 58).
CURRIER, M., salmonellae in swine, 366.
D'AQUINO, M., inactivating aspergilli with halogens, 537; *Bacillus subtilis* assay for aflatoxin, 974.
DAISE, R.L., potato-like odor of beef, 272.
DAVIDSON, P.M., (see Demott, 117).
DE SMEDT, J.M., *Salmonella* detection by motility enrichment, 510.

CONTENTS, VOLUME 49

Vol. 49 January, 1986 No. 1

Research Papers

- Determination of Bacterial ATP Levels in Raw Milk: Selectivity of Non-Bacterial ATP Hydrolysis **Daniel P. Theron, Barnard A. Prior* and Pieter M. Lategan** . 4
- Sensitivity and Precision of Bioluminescent Techniques for Enumeration of Bacteria in Skim Milk **Daniel P. Theron, Barnard A. Prior* and Pieter M. Lategan** 8
- Bacterial Mutagenicity of Fractions from Chloroform Extracts of Ceylon Cinnamon **C. Paovalo* and M. U. Chulasiri** 12
- Evaluation of a Comminuted Meat Product Containing a Solid Metal Contaminant **H. W. Ockerman* and B. Boessi** 14
- Bioluminescent ATP Assay for Rapid Estimation of Microbial Numbers in Fresh Meat **Kenneth J. Littel*, Sylvia Pikelis and Arnold Spurgash** 18
- Enumeration and Characterization of *Clostridium perfringens* Spores in the Feces of Food Poisoning Patients and Normal Controls **Stanley M. Harmon*, Donald A. Kautter and Charles L. Hatheway** 23
- Toxigenic and Nontoxigenic Strains of Aspergilli and Penicillia Grown in the Presence of Sodium Chloride Cause Enzyme-Catalyzed Hydrolysis of Protein, Fat and Hydrogen Peroxide **Fathy E. El-Gazzar and Elmer H. Marth*** 29
- *Clostridium perfringens* as an Indicator of Hygienic Quality of Depurated Shellfish **Robert H. Madden*, H. Buller and D. W. McDowell** 33
- Effects of Iron Alone and in Combination with Calcium, Zinc and Copper on the Mineral-Binding Capacity of Wheat Bran **S. R. Platt and F. M. Clydesdale*** . 37
- Microbiological Stability of Pasteurized Ham Subjected to a Secondary Treatment in Retort Pouches **P. J. Delaquis, R. Baker and A. R. McCurdy*** 42
- Cellular Damage in Dried *Lactobacillus acidophilus* **Merry Brennan, Bahijah Wanismail, M. C. Johnson and Bibek Ray*** 47
- Influence of Addition of Newly Drawn Milk and Fluctuating Temperatures of Farm Bulk Tanks on Growth of Mastitis-Causing Bacteria **Hailt H. Oz* and R. J. Farnsworth** 54
- Use of Antioxidant-Coated Salts as N-Nitrosamine Inhibitors in Dry- and Brine-Cured Bacon **P. H. Bernthal, J. I. Gray*, A. K. Mandagere, W. G. Ikins, S. L. Cuppett, A. M. Booren and J. F. Price** 58

General Interest Paper

- Resuscitation of Injured *Salmonella* spp. and Coliforms from Foods **Wallace H. Andrews** 62

Vol. 49 February, 1986 No. 2

Research Papers

- Rapid Detection of Salmonellae in Foods Using Immunoassay Systems **George F. Ibrahim*, Mary J. Lyons, Reta A. Walker and Graham H. Fleet** 92
- Applicability of the *Bacillus stearothermophilus* Disc Assay for Penicillin Residues in Casein/Caseinates **Kathleen T. Rajkowski* and James W. Messer** 99
- Homologous Bacteriophage Control of *Pseudomonas* Growth and Beef Spoilage **G. Gordon Greer** 104
- A Research Note: Relationship of Somatic Cell Count and Total Sulfhydryls in Milk **Daniel R. Samples, Susan L. Dill, Ronald L. Richter* and Charles W. Dill** 110
- Effect of Sugar and Low-Dose Irradiation on Toxin Production by *Clostridium botulinum* in Comminuted Bacon **C. N. Huhtanen, J. Shieh, E. Wierbicki, L. Zaika, R. K. Jenkins, R. L. Buchanan and D. W. Thayer*** 112
- Use of Sodium Substitutes in Cottage Cheese and Buttermilk **B. J. Demott*, J. P. Hitchcock and P. M. Davidson** 117
- Influence of Sample Reconstitution on Recovery of *Salmonella* Species from Low-Moisture Dairy Foods **Paul L. Poelma*, Clyde R. Wilson and Wallace H. Andrews** 121
- Sulfite Residues in Restaurant Salads **Laura B. Martin, Julie A. Nordlee and Steve L. Taylor*** 126
- Shelf-Life Extension of Vacuum Packaged Frankfurters Made from Beef Inoculated with *Streptococcus lactis* **S. Y. Wang, T. R. Dockerty*, R. A. Ledford and J. R. Stouffer** 130
- Survival and Growth of *Campylobacter jejuni* in Egg Yolk and Albumen **A. Gavin Clark* and Donna H. Bueschkens** 135
- Effects of Radurization and Refrigerated Storage on Quality and Shelf-Life of Freshwater Prawns, *Macrobrachium rosenbergii* **S. Angel, B. J. Juven, Z. G. Weinberg, P. Lindner and E. Eisenberg** 142
- Toxicological Safety Evaluation of a *Bacillus acidopullulyticus* Pullulanase **M. Stavnsbjerg*, R. K. Hjortkjaer, V. Bille-Hansen, B. F. Jensen, R. J. Greenough, M. McConville, M. Holmstroem and K. P. Hazelden** 146

General Interest Papers

- Pictorial Guide for Rapid Identification of Common Adult Storage Insects **Richard M. Klein** 154
- *Campylobacter jejuni* in Foods: Its Occurrence, Isolation from Foods, and Injury **Samuel A. Palumbo** 161

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

Vol. 49 November, 1986 No. 11

Research Papers

- Incidence of Clostridia in Cooked Meat Products in Japan **Y. Kokubo*, M. Matsumoto, A. Terada, M. Saito, K. Shinagawa, H. Konuma and H. Kurata** .. 854
- A Research Note: A Practical Evaluation of the Delvotest P Multi Plate Test in Screening Raw Milk for Antibiotics **Lyse Larocque and G. A. Neville*** 858
- Selected Biological Properties of Enterotoxigenic Staphylococci Isolated from Milk **F. M. Abbar*, M. Tahir Mohammed and S. H. Arslain** 871
- Survival and Outgrowth of *Clostridium sporogenes* Spores during Curing and Storage of Corned Beef with Reduced Levels of Sodium Chloride **R. C. Whiting*, R. C. Benedict and M. Cengialosi** 874
- A Research Note: Tolerance of *Plesiomonas shigelloides* to pH, Sodium Chloride and Temperature **Mary L. Miller and John A. Koburger*** 877
- Growth of and Aflatoxin Production by *Aspergillus parasiticus* in a Medium Containing Potassium Chloride or a Mixture of Potassium Chloride and Sodium Chloride **Gulam Rusul, Fathy E. El-Gazzar and Elmer H. Marth*** 880
- Growth of Spoilage Bacteria in Broth and Vacuum-Packed Bologna-Type Sausage at Fluctuating Temperatures and Low Temperature Storage **H.-J.S. Nielsen* and P. Zeuthen** 886
- A Research Note: Concentration of *Giardia* Cysts from Water by a Centrifugal Cream Separator **E. P. Merrill** 891
- A Research Note: Occurrence of *Salmonella* in Porcine Liver in Northern Ireland **R. H. Madden*, B. Hough and C. W. Gillespie** 893
- *Campylobacter jejuni* Infection on Poultry Farms and its Effect on Poultry Meat Contamination During Slaughtering **C. Genigeorgis*, M. Hassuneh and P. Collins** 895
- Histamine Levels in Commercially Processed Fish in Morocco **L. Ababouch*, M. M. Alaoui and F. F. Busta** 904
- Determination of Dibromochloropropane and Related Fumigants in Citrus Fruit **Yasuhide Tonogai, Yoshio Ito, Shunjiro Ogawa and Masahiro Iwaida** 909
- Rapid Determination of Mono-, Di- and Tri-isopropyl Citrate in Foods by Gas Chromatography **Sumiko Tsuji, Yasuhide Tonogai and Yoshio Ito*** 914
- A Research Note: Effect of Film Oxygen Transmission Rate on Lean Color and Microbiological Characteristics of Vacuum-Packaged Beef Knuckles **J. W. Savell, D. B. Griffin, C. W. Dill, G. R. Acuff and C. Vanderzant*** 917
- Reactivation with Pancreatin of Coproantibody-Neutralized Virus in Ground Beef **K. D. Kostenbader, Jr. and D. O. Cliver*** 920

General Interest Paper

- Incidence of Foodborne Disease in the Netherlands: Annual Summary - 1981 **H. J. Beckers** 924

Vol. 49 December, 1986 No. 12

Research Papers

- Distribution of Coliphages in Various Foods **J. E. Kennedy, Jr., C. I. Wei* and J. L. Oblinger** 951
- Characterization of Coliphages Recovered from Foods According to Temperature of Infectivity **J. E. Kennedy, Jr., C. I. Wei* and J. L. Oblinger** 952
- A Research Note: Enterotoxigenicity of *Staphylococcus aureus* from Anterior Nares of Dining Hall Workers **Abiodun A. Adesiyun*, Ifedapo Raji and Vivian Yobe** 955
- Assessment of the Microbiological Quality of Spices and Herbs **Josephine Pafumi** 958
- Musty Aroma Compounds Produced by Selected Molds and Antinomycetes on Agar and Whole Wheat Bread **Natholyn D. Harris, Carol Karahadian and Robert C. Lindsay*** 964
- Non-Detection of Enteroviruses in Shellfish Collected from Legal Shellfish Beds in Massachusetts **Khalifa I. Khalifa*, Barbara Werner and Ralph Timperi Jr.** .. 971
- A Research Note: *Bacillus subtilus* rec Assay for Quantification of Aflatoxins **Miguel D'Aquino*, Silvia Bejar and Ernesto Bollini** 974
- The Psychophysical Relationship Between Color and Sodium Chloride Concentrations in Model Systems **S. R. Gifford and F. M. Clydesdale*** 977
- A Research Note: Growth and Survival of *Yersinia enterocolitica* in Yogurt **Ahmed A-H. Ahmed*, Moustafa K. Moustafa and Tawfik A. El-Bassiony** .. 983
- Effect of a Mixture of *Lactobacillus casei* and *Lactobacillus acidophilus* Administered Orally on the Immune System in Mice **Gabriela Perdigon, Maria Elena Nader de Macias, Susana Alvarez, Marta Medici, Guillermo Oliver and Alda Pesce de Ruiz Holgado*** 986
- Survey of Bulk Tank Milk using Blood-Esculin Agar Counts **J. S. Hogan*, J. W. Pankey, P. Murdough and D. B. Howard** 990
- Psychrotrophic Growth and Thermal Inactivation of *Listeria monocytogenes* as a Function of Milk Composition **Catherine W. Donnelly* and Elizabeth H. Briggs** 994
- Influence of Sodium Substitution with Potassium on Microbial and Organoleptic Spoilage Patterns in Sliced Vacuum-Packed Pasteurized Pork Loin **H.-J. S. Nielsen* and P. Zeuthen** 999

General Interest Paper

- Is Refrigeration Enough to Restrain Foodborne Pathogens? **Samuel A. Palumbo** 1003

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

SUBJECT INDEX

Acid
  acetic, pathogens in poultry scald water, 500
  acetic/formic, applied to beef, 207
Adenosine triphosphate (ATP)
  fish, testing, 647
  meat, testing, 18
  milk, testing, 4, 8, 822
Aeromonas hydrophila
  growth at low temperatures, 1003
  irradiation, D-values, 189
  oysters, 643
  water, 471
Aflatoxin (see Mycotoxins)
  Bacillus subtilis rec assay, 974
  chicken tissues, 799
  corn, estimation, 623
  M_1, cheese, 633
  peanut butter, 792
  production in
    binagol, 854
    presence of KCl/NaCl, 854, 880
    presence of NaCl, 461
    presence of sucrose esters, 378
  production inhibited by beta-ionone, 515
  residues, milk, 781
  Spanish foods and feeds, 445
  various foods, 786
Air, samplers compared, 236
Aldicarb, food poisoning outbreak, 573
Allergy
  milk proteins, 239
  sulfite, 845
Amines
  fish, 904
  intoxication, 924
  miso, 423
Ammonia contamination, foodborne outbreak, 576
Antioxidants, pork, 222
Aspergillus flavus
  growth in presence of NaCl, 29
  musty aroma substances produced, 964
  spores, airborne, detection, 236
Aspergillus parasiticus
  growth, binagol, 854
  growth in presence of
    KCl/NaCl, 854, 880
    NaCl, 29, 461
    sucrose esters, 378
  halogenated compounds, action, 537
  inhibited by beta-ionone, 515
Bacillus acidopullulyticus, pullulanase, toxicology, 146
Bacillus cereus
  growth, reconstituted nonfat dry milk, 680
  illness, outbreak, 842
  spices, 958
  water activity, 656
Bacillus stearothermophilus
  disc assay, beta lactam antibiotics, 687
  disc assay, penicillin, casein, 99
Bacillus subtilis, rec assay, aflatoxin, 974
Bacon
  comminuted, irradiated, 112
  nitrosamine formation inhibited, 58
  stored 6 weeks at 4 or -23°C, 180
Bacteriophage, beef spoilage, control, 104
Beef
  acid-treated, properties, 207

boning, prerigor and chilled, 211
corned, *Clostridium sporogenes* survival/growth, 874
ground
Listeria monocytogenes survival, 847
virus reactivation, 920
hydrophobic grid membrane filter test, 278
knuckles, packaged, characteristics, 917
patties, cooked, survival of bacteria, 203
potato-like odor, 272
roast, electrical stimulation/hot boned, 355
slices, precooked, microbiology, 534
spoilage, control, 104
steaks, restructured, properties, 455
tuberculous, benefits from removal, 293
Biotechnology
animal reproduction, dairy industry, 844
food/dairy industry, 844
Botulism
antibotulinal
activity, dinitrosyl ferrohemochrome, 691
agent, phosphates, 482
properties, process cheese spreads, 526
antitoxin, release, 838
foodborne outbreak, 78, 80, 81, 577, 924
infant, outbreak, 167, 168
wound, outbreak, 835
Brevibacterium linens, Roquefort cheese, orange pigment, 412
Campylobacter coli
enteritis, 347
pork skin, recovery methods, 532
Campylobacter jejuni
chicken
farm and chicken meat, 895
processing factory, 290
enteritis, 347, 403, 757, 834, 924, 1011
foods, occurrence, isolation, injury, 161
growth/survival, egg yolk and albumen, 135
pork skin, recovery methods, 532
survival, acidified scald water, 500
turkey products, 627, 712
water activity, 656
Canning, low-acid, failures, 845
Carbon dioxide, bacterial growth controlled, 806
Casein/caseinates
immunologic/allergic properties, 239
penicillin, detection, 99
salmonellae, recovery, 121
Cheese
aflatoxin M_1, 632
Camembert, *Listeria monocytogenes*, survival, 848
Cheddar
crystals, estimation of, 421
Listeria monocytogenes, survival, 848
Salmonella, 857
cottage
calcium:sodium ratio, increasing, 850
gram-negative bacteria, detection, 853
sodium substitutes, 117
Listeria monocytogenes
behavior, 849
methods compared, 849
manufacture, penicillin distribution, 796
mold growth, quantitation, 855
processed
antibotulinal properties, 526
quality, microbiological, 229
ripening accelerated, 395
Roquefort, orange-reddish pigmentation, 412
soft/semi-soft, surveillance for *Listeria*, 847
Swiss, white spot defect, 718
Chicken
farm/meat, *Campylobacter jejuni*, 895
processing factory, *Campylobacter jejuni*, 290
scald water, acetic acid, pathogen survival, 500
skin, attached *Salmonella typhimurium*, 449
tissue, aflatoxin, 799
Ciguatera poisoning
fish-associated, 858
foodborne outbreak, 574, 579, 755
Cinnamon, mutagenic fractions, 12
Citrates, rapid determination, 914
Clostridium botulinum
bacon, irradiated and sugar, 112
onions, sauteed, growth, 618
^{32}P in cells, 352
seafood, 858
type E, growth at low temperature, 1003
water activity, 656
Clostridium perfringens
beef patties, cooked, survival, 203
enterotoxin, latex agglutination test, 523
foodborne illness outbreak, 167, 924
meat, 864
meat pies, 634
medium, improved, 706
shellfish, hygienic quality, 33
spices, 958
spores, enumeration, 23
tehineh, 504
water activity, 656
Clostridium sp., meat, 864
Clostridium sporogenes, corned beef, survival/growth, 874
Coliform bacteria
growth/death in ultrafiltered milk, 233
inhibited by tuberine, 340
injured, resuscitation, 62
processed cheese, 229
shellfish, 971
spices, 958
Coliphages
characterization, 952
distributed in foods, 944
Color, relationship with NaCl, 977
Corn, aflatoxin estimation, 623
Cryptosporidium, foodborne illness, 76, 167, 311
Dairy equipment (see Food equipment)
Dairy products (see Cheese including varieties, Milk products)
Dermatitis, outbreak, orange pickers, 839
Donairs (gyros), hazards and control, 369
Drying, *Lactobacillus acidophilus*, cellular damage, 47
Egg
albumen/yolk, *Campylobacter jejuni*, 135
hydrophobic grid membrane filter test, 278
Electrical stimulation, beef, roast, 355
Enterobacter cloacae
ATP content, 4, 8
scallops, 605
Enterobacteriaceae
identification method, 605
nonfat dry milk, 680
Enzyme
ATP-hydrolyzing, 822
cheese ripening, accelerated, 395
glucose isomerase, producing bacterium reclassified, 318
milk
indices of heat treatment, 696
quality, 739
proteases, physicochemical properties, 183
proteinases, cell walls of lactobacilli, 361
pullulanase, toxicology, 146
Escherichia coli

broilers, 605
coliphages, characterization, 952
concentration with gel, 852
enterotoxigenic, growth at low temperatures, 1003
injured, 651
meats, 944
survival, hot-holding temperatures, 496
Escherichia coli 0157:H7
illness, outbreaks, 401, 402, 932
method to isolate from food, 768
Feces, *Clostridium perfringens*, enumeration, 23
Fish (see Shellfish)
ATP test for bacteria, 647
bacteria, growth controlled with CO_2, 806
canned, *Staphylococcus aureus* growth, 428
histamine, 904
Vibrio parahaemolyticus, enumeration method, 773
Food animal residue avoidance data bank, 826
Foodborne illness
Aeromonas hydrophila, 643
aldicarb poisoning, 573
ammonia contamination, 576
Bacillus cereus, 842
botulism, 78, 80, 81, 577, 835
botulism, infant, 167, 168
campylobacteriosis, 347, 403, 757, 834, 1011
ciguatera poisoning, 574, 579, 755
Clostridium perfringens, 167
Cryptosporidium, 76, 167, 311
dermatitis, 839
Escherichia coli 0157:H7, 401, 402
gastroenteritis
clam, 401, 836
cruise ships, 758
giardiasis, 836
heavy metal, 77
hepatitis, 80, 1011
listeriosis, 311, 755, 838
monosodium glutamate, 401
mussels, quarantine, 79
Netherlands, 924
nutrition deficiency, 312

CONTENTS, VOLUME 49

Vol. 49 — January, 1986 — No. 1

Research Papers

- Determination of Bacterial ATP Levels in Raw Milk: Selectivity of Non-Bacterial ATP Hydrolysis **Daniel P. Theron, Barnard A. Prior* and Pieter M. Lategan** . 4
- Sensitivity and Precision of Bioluminescent Techniques for Enumeration of Bacteria in Skim Milk **Daniel P. Theron, Barnard A. Prior* and Pieter M. Lategan** . 8
- Bacterial Mutagenicity of Fractions from Chloroform Extracts of Ceylon Cinnamon **C. Paovalo* and M. U. Chulasiri** . 12
- Evaluation of a Comminuted Meat Product Containing a Solid Metal Contaminant **H. W. Ockerman* and B. Boesel** . 14
- Bioluminescent ATP Assay for Rapid Estimation of Microbial Numbers in Fresh Meat **Kenneth J. Littel*, Sylvia Pikells and Arnold Spurgash** . 18
- Enumeration and Characterization of *Clostridium perfringens* Spores in the Feces of Food Poisoning Patients and Normal Controls **Stanley M. Harmon*, Donald A. Kautter and Charles L. Hatheway** . 23
- Toxigenic and Nontoxigenic Strains of Aspergilli and Penicillia Grown in the Presence of Sodium Chloride Cause Enzyme-Catalyzed Hydrolysis of Protein, Fat and Hydrogen Peroxide **Fathy E. El-Gazzar and Elmer H. Marth*** . 29
- *Clostridium perfringens* as an Indicator of Hygienic Quality of Depurated Shellfish **Robert H. Madden*, H. Buller and D. W. McDowell** . 33
- Effects of Iron Alone and in Combination with Calcium, Zinc and Copper on the Mineral-Binding Capacity of Wheat Bran **S. R. Platt and F. M. Clydesdale*** . 37
- Microbiological Stability of Pasteurized Ham Subjected to a Secondary Treatment in Retort Pouches **P. J. Delaquis, R. Baker and A. R. McCurdy*** . 42
- Cellular Damage in Dried *Lactobacillus acidophilus* **Merry Brennan, Bahljah Wanismail, M. C. Johnson and Bibek Ray*** . 47
- Influence of Addition of Newly Drawn Milk and Fluctuating Temperatures of Farm Bulk Tanks on Growth of Mastitis-Causing Bacteria **Halit H. Oz* and R. J. Farnsworth** . 54
- Use of Antioxidant-Coated Salts as N-Nitrosamine Inhibitors in Dry- and Brine-Cured Bacon **P. H. Bernthal, J. I. Gray*, A. K. Mandagere, W. G. Ikins, S. L. Cuppett, A. M. Booren and J. F. Price** . 58

General Interest Paper

- Resuscitation of Injured *Salmonella* spp. and Coliforms from Foods **Wallace H. Andrews** . 62

Vol. 49 — February, 1986 — No. 2

Research Papers

- Rapid Detection of Salmonellae in Foods Using Immunoassay Systems **George F. Ibrahim*, Mary J. Lyons, Reta A. Walker and Graham H. Fleet** . 92
- Applicability of the *Bacillus stearothermophilus* Disc Assay for Penicillin Residues in Casein/Caseinates **Kathleen T. Rajkowski* and James W. Messer** . 99
- Homologous Bacteriophage Control of *Pseudomonas* Growth and Beef Spoilage **G. Gordon Greer** . 104
- A Research Note: Relationship of Somatic Cell Count and Total Sulfhydryls in Milk **Daniel R. Samples, Susan L. Dill, Ronald L. Richter* and Charles W. Dill** . 110
- Effect of Sugar and Low-Dose Irradiation on Toxin Production by *Clostridium botulinum* in Comminuted Bacon **C. N. Huhtanen, J. Shieh, E. Wierbicki, L. Zaika, R. K. Jenkins, R. L. Buchanan and D. W. Thayer*** . 112
- Use of Sodium Substitutes in Cottage Cheese and Buttermilk **B. J. Demott*, J. P. Hitchcock and P. M. Davidson** . 117
- Influence of Sample Reconstitution on Recovery of *Salmonella* Species from Low-Moisture Dairy Foods **Paul L. Poelma*, Clyde R. Wilson and Wallace H. Andrews** . 121
- Sulfite Residues in Restaurant Salads **Laura B. Martin, Julie A. Nordlee and Steve L. Taylor*** . 126
- Shelf-Life Extension of Vacuum Packaged Frankfurters Made from Beef Inoculated with *Streptococcus lactis* **S. Y. Wang, T. R. Dockerty*, R. A. Ledford and J. R. Stouffer** . 130
- Survival and Growth of *Campylobacter jejuni* in Egg Yolk and Albumen **A. Gavin Clark* and Donna H. Bueschkens** . 135
- Effects of Radurization and Refrigerated Storage on Quality and Shelf-Life of Freshwater Prawns, *Macrobrachium rosenbergii* **S. Angel, B. J. Juven, Z. G. Weinberg, P. Lindner and E. Eisenberg** . 142
- Toxicological Safety Evaluation of a *Bacillus acidopullulyticus* Pullulanase **M. Stavnsbjerg*, R. K. Hjortkjaer, V. Bille-Hansen, B. F. Jensen, R. J. Greenough, M. McConville, M. Holmstroem and K. P. Hazelden** . 146

General Interest Papers

- Pictorial Guide for Rapid Identification of Common Adult Storage Insects **Richard M. Klein** . 154
- *Campylobacter jejuni* in Foods: Its Occurrence, Isolation from Foods, and Injury **Samuel A. Palumbo** . 161

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

Vol. 49 March, 1986 No. 3

Research Papers

- Acceptability of Bacon Stored Six Weeks at 4 or -23°C **C. N. Huhtanen* and F. B. Talley** 180
- Physicochemical Properties of Heat-Stable Proteases from Psychrotrophic Pseudomonads **T. R. Patel*, D. M. Jackman, G. J. Williams and F. M. Bartlett** 183
- Determination of Irradiation D-Values for *aeromonas hydrophila* **Samuel A. Palumbo*, Ronald K. Jenkins, Robert L. Buchanan and Donald W. Thayer** 189
- Compositional and Selected Functional Properties of Whey Protein Concentrates and Lactose-Hydrolyzed Whey Protein Concentrates **Ronald H. Schmidt, David E. Smith*, Vernal S. Packard and Howard A. Morris** 192
- Relaying to Decrease the Concentration of Oyster-Associated Pathogens **David W. Cook* and R. D. Ellender** 196
- Survival of *Clostridium perfringens* and Aerobic Bacteria in Ground Beef Patties during Microwave and Conventional Cookery **L. Wright-Rudolph, H. W. Walker* and F. C. Parrish, Jr.** 203
- Microbiological and Sensory Tests of Beef Treated with Acetic and Formic Acids **M. F. Bell, R. T. Marshall* and M. E. Anderson** 207
- Prerigor Versus Chilled Boning of Beef Carcass Sides on the Rail: Measurement of Time, Effort, Yield, and Space Requirements **Clayton F. Brasington*, Dennis M. Stiffler and Raymond A. Stermer** 211
- Microanalytical Quality of Ground and Unground Marjoram, Sage and Thyme, Ground Allspice, Black Pepper and Paprika **John S. Gecan*, Ruth Bandler, Larry E. Glaze and John C. Atkinson** 216
- Effect of Processing, Packaging and Various Antioxidants on Lipid Oxidation of Restructured Pork **Robert S. Miles, Floyd K. McKeith*, Peter J. Bechtel and Jan Novakofski** 222
- A Method for Recovery of Poliovirus 1 from a Variety of Foods **Robert Sullivan, James T. Peeler and Edward P. Larkin*** 226
- A Research Note: A Survey of the Microbiological Quality of Processed Cheese Products **Donald W. Warburton, Pearl I. Peterkin* and Karl F. Weiss** 229
- A Research Note: Effect of Pyruvate on Recovery of Fungi from Foods **John A. Koburger** 231
- Growth and Death of Selected Microorganisms in Ultrafiltered Milk **Patricia Haggerty and Norman N. Potter*** 233
- Comparison of Particulate Air Samplers for Detection of Airborne *Aspergillus flavus* Spores **J. Clayton Silas, Mark A. Harrison*, John A. Carpenter and James B. Floyd** 236

General Interest Paper

- Immunologic and Allergic Properties of Cows' Milk Proteins in Humans **Steve L. Taylor** 239

Vol. 49 April, 1986 No. 4

Research Papers

- Evaluation of Inorganic Phosphate on Growth and Lactose Metabolism of Lactic Streptococci in Batch and Continuous Culture **R. P. Sinha** 260
- A Research Note: Occurrence of Phthalate Esters in Italian Packaged Foods **Renata Amodio Cocchieri** 265
- Production and Characterization of Antibody Against 3'-OH-T-2 Toxin **Ru-Dong Wei, William Bischoff and Fun Sun Chu*** 267
- A Research Note: Potato-Like Odor of Retail Beef Cuts Associated with Species of *Pseudomonas* **R. L. Daise, E. A. Zottola* and R. J. Epley** 272
- Evaluation of Inositol Brilliant Green Bile Salts and Plesiomonas Agars for Recovery of *Plesiomonas shigelloides* from Aquatic Samples in a Seasonal Survey of the Suwannee River Estuary **Mary L. Miller and John A. Koburger*** 274
- A Research Note: Use of Fast Green FCF with Tryptic Soy Agar for Aerobic Plate Count by the Hydrophobic Grid Membrane Filter **Phyllis Entis* and Peter Boleszczuk** 278
- Evaluation of Summer Sausage Manufactured Using Mixed *Lactobacillus* and *Leuconostoc* Starter Culture **O. J. Burrowes, F. H. Schmidt*, K. L. Smith and J. V. Chambers** 280
- A Research Note: Occurrence of *Salmonella* in Iraqi Milk Products **Wafa J. Al-Rajab*, Wail W. Al-Dabbagh and Soad M. Al-Zahawi** 282
- Molar Ratio of Sodium and Chloride in Sweet-Type Whey and Inability to Determine Sodium Concentrations from Chloride Measurements **Antone G. Gregory** 285
- Incidence of *Campylobacter jejuni* and *Campylobacter coli* Serogroups in a Chicken Processing Factory **B. J. Juven* and M. Rogol** 290

General Interest Papers

- A Retrospective Assessment of Human Health Protection Benefits from Removal of Tuberculous Beef **Tanya Roberts** 293
- A Review of Immunoassays and Their Application to Salmonellae Detection in Foods **George F. Ibrahim** 299

Vol. 49 May, 1986 No. 5

Research Papers

- Production and Characterization of Antibody Against Deoxynivalenol Triacetate **Guang-Shi Zhang, Shu Wen Li and Fun Sun Chu*** 336
- A Research Note: Antimicrobial Activity of (+)-Tuberine **Said O. Ghan* and G. M. Sheriha** 340
- A Simple Qualitative Method for Detecting Cleanliness of Food Contact Surfaces **M. E. Anderson*, H. E. Huff, R. T. Marshall and H. D. Naumann** 342
- Dairy Products, Produce and Other Non-Meat Foods as Possible Sources of *Campylobacter jejuni* and *Campylobacter coli* Enteritis **Noreen V. Herris, Terri Kimball, Noel S. Weiss and Charles Nolan*** 347
- Association of [^{32}P] with *Clostridium botulinum* 52A Vegetative Cells Following Growth in a Medium Containing Sodium Dihydrogen [^{32}P]-Pyrophosphate **M. K. Wagner* and F. F. Busta** 352
- Influence of Electrical Stimulation and Conditioning Periods Upon Hot-Boned Cooked Beef Semitendinosus Roast **Earl E. Ray*, C. Farrell and D. E. Hood** 355
- Cell-Wall-Associated Proteinases in *Lactobacillus casei* and *Lactobacillus plantarum* **M. El Soda, M. J. Desmazeaud*, D. Le Bars and C. Zevaco** 361
- *Salmonella* in Swine at Slaughter: Incidence and Serovar Distribution at Different Seasons **Martin Currier, Mark Singleton, Joey Lee and Don R. Lee*** 366
- Donairs (Gyros) - Potential Hazards and Control **Ewen C. D. Todd*, R. Szabo and F. Spiring** 369
- Effect of Sucrose Esters in Combination with Selected Mold Inhibitors on Growth and Aflatoxin Production by *Aspergillus parasiticus* **Douglas L. Marshall and Lloyd B. Bullerman*** 378
- HPLC Analysis of Oxytetracycline Residues in Honey **Peter Sporns*, Suet Kwan and Lawrence A. Roth** 383

General Interest Papers

- Sources of Shellfish in Outbreaks of Probable Viral Gastroenteritis: Implications for Control **John J. Guzewich* and Dale L. Morse** 389
- Acceleration of Cheese Ripening: Recent Advances **M. El Soda** 395

Vol. 49 June, 1986 No. 6

Research Papers

- An Orange-Reddish Pigmentation in Roquefort Cheese **Graciela Font de Valdez, Graciela Savoy de Giori, Alda Pesce de Ruiz Holgado and Guillermo Oliver*** 412
- Quality of Dry-Cured Hams Produced from Pre-Frozen Hams as Affected by Mechanical Tenderization and Vacuum Packaging **J. D. Kemp*, B. E. Langlois, J. D. Fox and F. Nicastro** 417
- A Research Note: A Simple Method for Estimating the Extent of Surface Crystal Development on Colored Cheddar Cheese **Stephen T. Dybing*, Steven A. Brudvig, James A. Wiegand and Emil A. Huang** 421
- Effect of Salt Concentration and Incubation Temperature on Formation of Histamine, Phenethylamine, Tryptamine and Tyramine During Miso Fermentation **K.-D. Henry Chin and P. E Koehler*** 423
- *Staphylococcus aureus* Growth and Thermostable Nuclease and Enterotoxin Production in Canned Salmon and Sardines **A. K. Stersky, R. Szabo, E. C. D. Todd*, C. Thacker, N. Dickie, and M. Akhtar** 428
- Use of a Disc-Assay System to Detect Oxytetracycline Residues in Honey **Lawrence A. Roth, Suet Kwan and Peter Sporns*** 436
- A Research Note: Evaluation of the Enteropathogenicity of *Klebsiella pneumoniae* Isolates from Summer-Harvested Louisiana Oysters **B. K. Boutin*, P. L. Spaulding and R. M. Twedt** 442
- Occurrence of Aflatoxin and Aflatoxigenic Molds in Foods and Feed in Spain **V. Sanchis*, N. Sala, A. Palomes, P. Santamarina and P. A. Burdaspal** 445
- Distribution of "Attached" *Salmonella typhimurium* Cells Between Poultry Skin and a Surface Film Following Water Immersion **H. S. Lillard** 449
- Effects of Connective Tissue Levels on Sensory, Instron, Cooking and Collagen Values of Restructured Beef Steaks **B. W. Berry*, J. J. Smith and J. L. Secrist** 455
- Growth and Aflatoxin Production by *Aspergillus parasiticus* in the Presence of Sodium Chloride **Fathy E. El-Gazzar, Gulam Rusul and Elmer H. Marth*** 461
- Survival of Salmonellae in Refrigerated, Agitated Water and Water/Glycol Mixtures **Edmund A. Zottola* and Lorraine B. Smith** 467
- Isolation of *Aeromonas hydrophila* from Bottled Waters and Domestic Water Supplies in Saudi Arabia **Peter J. Slade*, Mohammed A. Falah and Ahmed M. R. Al-Ghady** 471

General Interest Papers

- Current Resuscitation Methods for Recovery of Stressed *Staphylococcus aureus* Cells from Foods **Gayle A. Lancette** 477
- Phosphates as Antibotulinal Agents in Cured Meats: A Review **M. K. Wagner** 482

Vol. 49 July, 1986 No. 7

Research Papers

- Survival of *Escherichia coli* in Food at Hot-Holding Temperatures **Caleb A. Makukutu* and Rufus K. Guthrie** 496
- Effect of Acetic Acid on the Death Rates at 52°C of *Salmonella newport*, *Salmonella typhimurium* and *Campylobacter jejuni* in Poultry Scald Water **Anita J. Okrend*, Ralph W. Johnston and Alice B. Moran** 500

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

- A Research Note: Microbiological Quality of Tehineh Manufactured in Saudi Arabia **M. Ayaz*, W. N. Sawaya and A. Al-Sogair** 504
- Survey of the Microbiological Quality of Adult Bovine Rennet Extracts **E. B. Martinez*, S. Tesone and F. Quevedo** 507
- Rapid *Salmonella* Detection in Foods by Motility Enrichment on a Modified Semi-Solid Rappaport-Vassiliadis Medium **Jozef M. De Smedt*, Robert F. Bolderdijk, Helmut Rappold and Dieter Lautenschlaeger** 510
- Inhibitory Effect of Beta-Ionone on Growth and Aflatoxin Production by *Aspergillus parasiticus* on Peanuts **Cheng-I Wei*, Hsioukun Tan, Samuel Y. Fernando and Nan-Jing Ko** 515
- Detection of Abnormal Milk with Impedance Microbiology Instrumentation **F. A. Khayat and G. H. Richardson*** 519
- A Research Note: Evaluation of a Reversed Passive Latex Agglutination Test Kit for *Clostridium perfringens* Enterotoxin **Stanley M. Harmon* and Donald A. Kautter** 523
- Evaluation of Factors Involved in Antibotulinal Properties of Pasteurized Process Cheese Spreads **N. Tanaka, E. Traisman*, P. Plantinga, L. Finn, W. Flom, L. Meske and J. Guggisberg** 526
- A Research Note: Comparison of Sampling Methods for Isolation of *Campylobacter jejuni coli* from Pork Skin **A. J. Bracewell, J. O. Reagan, J. A. Carpenter* and L. C. Blankenship** 532
- A Research Note: Microbial Changes of Precooked Beef Slices as Affected by Packaging Procedure **T. P. Carr and J. A. Marchello*** 534
- Action of Halogenated Compounds on *Aspergillus* Conidiospores **Miguel D'Aquino*, Pilar Santini and Humberto Muzio** 537
- A Research Note: Heat-Inactivation of *Streptococcus faecium* var. *casseliflavus* in Skim Milk Cultures with *Pseudomonas fluorescens* **Jeffrey L. Kornacki and Elmer H. Marth*** 541

General Interest Paper

- Qualitative, Quantitative and Technological Aspects of the Trichothecene Mycotoxins **A. Peter Snyder** 544

Vol. 49 August, 1986 No. 8

Research Papers

- Evaluation of Methods for Extraction of Enteric Virus from Louisiana Oysters **Mary Townsend Cole, Marilyn B. Kilgen and Cameron R. Hackney*** 592
- Detection of Enteroviruses and Bacterial Indicators and Pathogens in Louisiana Oysters and Their Overlying Waters **Mary Townsend Cole, Marilyn B. Kilgen, Lawrence A. Reily and Cameron R. Hackney*** 596
- Changes in Manganese Content in *Lactobacillus plantarum* During Inhibition with Sodium Nitrite **D. L. Collins-Thompson* and I. Q. Thomson** 602
- A Research Note: *Enterobacteriaceae* Identification from Stock Cultures and High Moisture Foods with a Four-Hour System (API Rapid E) **N. A. Cox* and J. S. Bailey** 605
- Interrelations Among Ecological Variables in Stored Cereals and Associations with Mycotoxin Production in the Climatic Zones of Western Canada **R. N. Sinha*, D. Abramson and J. T. Mills** 608
- Control of T-2 Toxin Production Using Atmospheric Gases **Nachman Paster*, Rivka Barkai-Golan and Moshe Calderon** 615
- A Research Note: Growth and Toxin Production by *Clostridium botulinum* in Sauteed Onions **Haim M. Solomon* and Donald A. Kautter** 618
- A Research Note: Microbiological Quality of Non-Dairy Creamers, Fillings and Toppings **Donald W. Warburton and Karl F. Weiss*** 621
- Aflatoxin Estimation in Corn by Measurement of Bright Greenish-Yellow Fluorescence in Aqueous Extracts **E. B. Lillehoj*, T. J. Jacks and O. H. Calvert** 623
- Effects of Handling and Preparation of Turkey Products on the Survival of *Campylobacter jejuni* **G. R. Acuff, C. Vanderzant*, M. O. Hanna, J. G. Ehlers and F. A. Gardner** 627
- A Research Note: Examination of Imported Cheeses for Aflatoxin M_1 **Mary W. Trucksess* and Samuel W. Page** 632
- Microbiological Quality of Canadian Frozen Meat Pies **K. Rayman*, K. F. Weiss, G. Riedel and G. Jarvis** 634
- Restructured Pork From Hot Processed Sow Meat: Effect of Mechanical Tenderization and Liquid Smoke **Joseph C. Cordray, Dale L. Huffman* and William R. Jones** 639
- Recovery of *Aeromonas hydrophila* from Oysters Implicated in an Outbreak of Foodborne Illness **Carlos Abeyta, Jr.*, Charles A. Kaysner, Marleen M. Wekell, John J. Sullivan and Gerard N. Stelma** 643
- Adenosine Triphosphate Bioluminescent Assay to Enumerate Bacterial Numbers on Fresh Fish **Donn R. Ward*, Kathleen A. LaRocco and Debra J. Hopson** 647

General Interest Papers

- Impact of Bacterial Injury and Repair in Food Microbiology: Its Past, Present and Future **Bibek Ray** 651
- Water Relations of Foodborne Bacterial Pathogens - An Updated Review **J. A. Troller** 656

Vol. 49 September, 1986 No. 9

Research Papers

- Changes in Microbial Population and Growth of *Bacillus cereus* During Storage of Reconstituted Dry Milk **Marcia H. Rodriquez and Ericka L. Barrett*** 680
- Detectability Levels of Four Beta-Lactam Antibiotics in Eight Milk Products Using the AOAC *Bacillus stearothermophilus* Disc Assay **Kathleen T. Rajkowski*, James T. Peeler and James W. Messer** 687
- An Evaluation of Antibotulinal Activity in Nitrite-Free Curing Systems Containing Dinitrosyl Ferrohemochrome **D. S. Wood, D. L. Collins-Thompson*, W. R. Usborne and B. Picard** 691
- Use of Milk Enzymes as Indices of Heat Treatment **Mansel W. Griffiths** ... 696
- Improved Media for Sporulation and Enterotoxin Production by *Clostridium perfringens* **Stanley M. Harmon* and Donald A. Kautter** 706
- Prevalence of *Campylobacter jejuni* in Turkey Carcass Processing and Further Processing of Turkey Products **G. R. Acuff, C. Vanderzant*, M. O. Hanna, J. G. Ehlers, F. A. Golan and F. A. Gardner** 712
- Etiology of White Spot Defect in Swiss Cheese Made from Pasteurized Milk **K. R. Nath* and B. J. Kostak** 718
- Comparison of Three-Class Attributes Sampling Plans and Variables Sampling Plans for Lot Acceptance Sampling in Food Microbiology **George A. Jarvis* and Stephen A. Malcolm** 724
- Variability of Milk Components in 1705 Herds **J. L. Sommerfeldt* and R. J. Baer** 729

General Interest Papers

- *Salmonella* Surveillance by the Food and Drug Administration: A Review 1974-1985 **Dean E. Wagner* and Sallie McLaughlin** 734
- Assessment of Dairy Product Quality and Potential Shelf-Life – A Review **J. R. Bishop and C. H. White*** 739
- Erratum: Evaluation of Factors Involved in Antibotulinal Properties of Pasteurized Process Cheese Spreads **N. Tanaka, E. Traisman*, P. Plantinga, L. Finn, W. Flom, L. Meske and J. Guggisberg** 754

Vol. 49 October, 1986 No. 10

Research Papers

- Method to Isolate *Escherichia coli* 0157:H7 from Food **Richard A. Szabo*, Ewen C. D. Todd and André Jean** 768
- ICMSF Methods Studies. XVI. Comparison of Salt Polymyxin Broth with Glucose Salt Teepol Broth for Enumerating *Vibrio parahaemolyticus* in Naturally Contaminated Samples **R. Sakazaki*, H. Pivnick, G. Jarvis, M. Goddard, Y. Asakawa, G. Barrow, L. Beuchat, R. Colwell, T. Gleeson, R. Gray, H. Nakanishi, S. Sakai, S. Stavric, K. Takizawa, K. Tamura, R. Twedt, C. Vanderzant and P. West** 773
- Aflatoxin Residues in Milk of Dairy Cows after Ingestion of Naturally Contaminated Grain **R. A. Frobish*, B. D. Bradley, D. D. Wagner, P. E. Long-Bradley and H. Hairston** 781
- Detection of Mold in Food by Enzyme-Linked Immunosorbent Assay **S. Notermans*, C. J. Heuveiman, H. P. Van Egmond, W. E. Paulsch and J. R. Besling** 786
- A Research Note: Application of ELISA to Retail Survey of Aflatoxin B_1 in Peanut Butter **Bhanu P. Ram, L. Patrick Hart, Richard J. Cole and James J. Pestka*** 792
- A Research Note: Penicillin Distribution During Cheese Manufacture and Membrane Treatment of Whey **Theodore Cayle, Jules H. Guth, John T. Hynes, Eugene P. Kolen and Maxine L. Stern*** 796
- Distribution and Effects of Aflatoxin in Chicken Tissues After Feeding Radiolabeled (^{14}C) Aflatoxin B_1 **W. I. Obioha, H. M. Stahr* and A. A. Kraft** 799
- Effect of Carbon Dioxide on Growth-Rates of Selected Microorganisms Isolated from Black Drum (*Pogonias cromis*) **Michal Lannelongue and Gunnar Finne*** . 806
- A Research Note: Comparison of Antibiotic-Containing Media and Media Supplemented with Dichloran and Rose Bengal for Isolation and Enumeration of Fungi in Spices **Joanna H. Rogers* and Phillip S. Guarino** 815
- Comparative Thermal Resistance of Human and Simian Rotaviruses Assayed on Cells Grown in a Serum-Free Medium **Dale J. Van Donsel*, James T. Peeler and Edward P. Larkin** 818
- Determination of Bacterial ATP in Milk — The Influence of Adenosine Triphosphate-Hydrolyzing Enzymes from Somatic Cells and *Pseudomonas fluorescens* **W. C. Botha, H. Lück and P. J. Jooste** 822

General Interest Paper

- Food Animal Residue Avoidence Databank (FARAD): An Automated Pharmacologic Databank for Drug and Chemical Residue Avoidance **J. Edmond Riviere*, Arthur L. Craigmill and Stephen F. Sundlof** 826

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

Vol. 49 November, 1986 No. 11

Research Papers

- Incidence of Clostridia in Cooked Meat Products in Japan **Y. Kokubo*, M. Matsumoto, A. Terada, M. Saito, K. Shinagawa, H. Konuma and H. Kurata** .. 864
- A Research Note: A Practical Evaluation of the Delvotest P Multi Plate Test in Screening Raw Milk for Antibiotics **Lyse Larocque and G. A. Neville*** 868
- Selected Biological Properties of Enterotoxigenic Staphylococci Isolated from Milk **F. M. Abbar*, M. Tahir Mohammed and S. H. Arslain** 871
- Survival and Outgrowth of *Clostridium sporogenes* Spores during Curing and Storage of Corned Beef with Reduced Levels of Sodium Chloride **R. C. Whiting*, R. C. Benedict and M. Cangialosi** 874
- A Research Note: Tolerance of *Plesiomonas shigelloides* to pH, Sodium Chloride and Temperature **Mary L. Miller and John A. Koburger*** 877
- Growth of and Aflatoxin Production by *Aspergillus parasiticus* in a Medium Containing Potassium Chloride or a Mixture of Potassium Chloride and Sodium Chloride **Gulam Rusul, Fathy E. El-Gazzar and Elmer H. Marth*** 880
- Growth of Spoilage Bacteria in Broth and Vacuum-Packed Bologna-Type Sausage at Fluctuating Temperatures and Low Temperature Storage **H.-J.S. Nielsen* and P. Zeuthen** 886
- A Research Note: Concentration of *Giardia* Cysts from Water by a Centrifugal Cream Separator **E. P. Merrill** 891
- A Research Note: Occurrence of *Salmonella* in Porcine Liver in Northern Ireland **R. H. Madden*, B. Hough and C. W. Gillespie** 893
- *Campylobacter jejuni* Infection on Poultry Farms and its Effect on Poultry Meat Contamination During Slaughtering **C. Genigeorgis*, M. Hassuneh and P. Collins** 895
- Histamine Levels in Commercially Processed Fish in Morocco **L. Ababouch*, M. M. Alaoui and F. F. Busta** 904
- Determination of Dibromochloropropane and Related Fumigants in Citrus Fruit **Yasuhide Tonogai, Yoshio Ito, Shunjiro Ogawa and Masahiro Iwaida** 909
- Rapid Determination of Mono-, Di- and Tri-isopropyl Citrate in Foods by Gas Chromatography **Sumiko Tsuji, Yasuhide Tonogai and Yoshio Ito*** 914
- A Research Note: Effect of Film Oxygen Transmission Rate on Lean Color and Microbiological Characteristics of Vacuum-Packaged Beef Knuckles **J. W. Savell, D. B. Griffin, C. W. Dill, G. R. Acuff and C. Vanderzant*** 917
- Reactivation with Pancreatin of Coproantibody-Neutralized Virus in Ground Beef **K. D. Kostenbader, Jr. and D. O. Cliver*** 920

General Interest Paper

- Incidence of Foodborne Disease in the Netherlands: Annual Summary - 1981 **H. J. Beckers** 924

Vol. 49 December, 1986 No. 12

Research Papers

- Distribution of Coliphages in Various Foods **J. E. Kennedy, Jr., C. I. Wei* and J. L. Oblinger** 951
- Characterization of Coliphages Recovered from Foods According to Temperature of Infectivity **J. E. Kennedy, Jr., C. I. Wei* and J. L. Oblinger** 952
- A Research Note: Enterotoxigenicity of *Staphylococcus aureus* from Anterior Nares of Dining Hall Workers **Abiodun A. Adesiyun*, Ifedapo Raji and Vivian Yobe** 955
- Assessment of the Microbiological Quality of Spices and Herbs **Josephine Pafumi** 958
- Musty Aroma Compounds Produced by Selected Molds and Antinomycetes on Agar and Whole Wheat Bread **Natholyn D. Harris, Carol Karahadian and Robert C. Lindsay*** 964
- Non-Detection of Enteroviruses in Shellfish Collected from Legal Shellfish Beds in Massachusetts **Khalifa I. Khalifa*, Barbara Werner and Ralph Timperi Jr.** .. 971
- A Research Note: *Bacillus subtilis* rec Assay for Quantification of Aflatoxins **Miguel D'Aquino*, Silvia Bejar and Ernesto Bollini** 974
- The Psychophysical Relationship Between Color and Sodium Chloride Concentrations in Model Systems **S. R. Gifford and F. M. Clydesdale*** 977
- A Research Note: Growth and Survival of *Yersinia enterocolitica* in Yogurt **Ahmed A-H. Ahmed*, Moustafa K. Moustafa and Tawfik A. El-Bassiony** .. 983
- Effect of a Mixture of *Lactobacillus casei* and *Lactobacillus acidophilus* Administered Orally on the Immune System in Mice **Gabriela Perdigon, Maria Elena Nader de Macias, Susana Alvarez, Marta Medici, Guillermo Oliver and Alda Pesce de Ruiz Holgado*** 986
- Survey of Bulk Tank Milk using Blood-Esculin Agar Counts **J. S. Hogan*, J. W. Pankey, P. Murdough and D. B. Howard** 990
- Psychrotrophic Growth and Thermal Inactivation of *Listeria monocytogenes* as a Function of Milk Composition **Catherine W. Donnelly* and Elizabeth H. Briggs** 994
- Influence of Sodium Substitution with Potassium on Microbial and Organoleptic Spoilage Patterns in Sliced Vacuum-Packed Pasteurized Pork Loin **H.-J. S. Nielsen* and P. Zeuthen** 999

General Interest Paper

- Is Refrigeration Enough to Restrain Foodborne Pathogens? **Samuel A. Palumbo** 1003

*Asterisk indicates author to whom inquiries regarding this paper should be addressed.

SUBJECT INDEX

Acid
  acetic, pathogens in poultry scald water, 500
  acetic/formic, applied to beef, 207
Adenosine triphosphate (ATP)
  fish, testing, 647
  meat, testing, 18
  milk, testing, 4, 8, 822
Aeromonas hydrophila
  growth at low temperatures, 1003
  irradiation, D-values, 189
  oysters, 643
  water, 471
Aflatoxin (see Mycotoxins)
  Bacillus subtilis rec assay, 974
  chicken tissues, 799
  corn, estimation, 623
  M_1, cheese, 633
  peanut butter, 792
  production in
    binagol, 854
    presence of KCl/NaCl, 854, 880
    presence of NaCl, 461
    presence of sucrose esters, 378
  production inhibited by beta-ionone, 515
  residues, milk, 781
  Spanish foods and feeds, 445
  various foods, 786
Air, samplers compared, 236
Aldicarb, food poisoning outbreak, 573
Allergy
  milk proteins, 239
  sulfite, 845
Amines
  fish, 904
  intoxication, 924
  miso, 423
Ammonia contamination, foodborne outbreak, 576
Antioxidants, pork, 222
Aspergillus flavus
  growth in presence of NaCl, 29
  musty aroma substances produced, 964
  spores, airborne, detection, 236
Aspergillus parasiticus
  growth, binagol, 854
  growth in presence of
    KCl/NaCl, 854, 880
    NaCl, 29, 461
    sucrose esters, 378
  halogenated compounds, action, 537
  inhibited by beta-ionone, 515
Bacillus acidopullulyticus, pullulanase, toxicology, 146
Bacillus cereus
  growth, reconstituted nonfat dry milk, 680
  illness, outbreak, 842
  spices, 958
  water activity, 656
Bacillus stearothermophilus
  disc assay, beta lactam antibiotics, 687
  disc assay, penicillin, casein, 99
Bacillus subtilis, rec assay, aflatoxin, 974
Bacon
  comminuted, irradiated, 112
  nitrosamine formation inhibited, 58
  stored 6 weeks at 4 or -23°C, 180
Bacteriophage, beef spoilage, control, 104
Beef
  acid-treated, properties, 207
